Thomas Hall, MA, CBIST,
Riverside Community Care

Training Description:

People with intellectual and developmental disabilities (I/DD) experience sexual abuse at much higher rates than others, and after potentially traumatic events, experience the same trauma symptoms as others. This training, developed out of the work Riverside Trauma Center has been doing with the MA Disabled Persons Protection Commission, the MA Dept. of Public Health, and Rape Crisis Centers in MA, provides information to behavioral health clinicians on how to adapt trauma-focused treatment to meet the needs of people with I/DD, and adapt forms of behavioral treatment for people with I/DD to meet the needs of sexual assault survivors.

Coffee/bagels will be provided for breakfast. We encourage everyone to bring lunch for the one-hour lunch break.
